

# Rugs the Right Way

1.) Where in my home do I need to add a new rug?

---

---

---

2.) What size rug should I use? (Bigger is better!)

---

---

---

3.) Things to consider for your budget:

- Carpet remnants from local stores make great rugs.
- Thinner rugs stack better. Try filling large spaces.
- Try second-hand rugs, there are so many options!

4.) Try a custom rug.

- If your budget allows, this is a great option.
- Can be resized, dyed, knitted.

5.) Use Outdoor rugs to add pops of color.

Note: Be sure to get specific rugs for outdoor use. Hold onto your receipt in case the color fades from the elements.
